Sponsorship Prospectus

Become a Sponsor!

We invite you to join us at PI World, the premier event that brings the PI System community together to explore how organizations transform their world with data.

In San Francisco, we will host a three-day expo that provides opportunities for partners to network and develop relationships with over 2,500 prospective and existing customers from around the world. The expo will take place at the Hilton Union Square from April 24-26, 2018.

Year after year, OSIsoft partners continue to utilize this conference as their marketing event of the year. We look forward to another action-packed conference with more possibilities for our partners to connect with the PI System community than ever before.

In this prospectus, you will notice an increase in the number and types of sponsorships and exhibitor locations. Because we have sold out of exhibitor spots quickly the last two years, we highly encourage you to [register now](#) to best leverage our partner team to maximize your investment.
