Chicago, IL
2018 EDUCAUSE Annual Conference
Registration is now open!
October 30–November 2 | Denver, CO
Community Groups

EDUCAUSE Community Groups are open, online communities that offer the responsiveness of an engaged group and a network of professionals. Groups interact throughout the year via electronic discussions and most meet at the EDUCAUSE Annual Conference. Community Groups are led by members and are formed around shared interests: domain interest, affiliation, position, or personal characteristic. Community Groups are open to the public; your name and email address are used for subscription purposes.

Groups Listing

View all the Community Groups available for your participation.
Enterprise Content Management / Document Management Community Group
Information Systems and Services
 Discusses strategies for selecting, implementing, and supporting Enterprise Content Management (ECM) solutions across your institution.
